November 20, 2023

Citizen of District 93, President and Members of the  
Board of Education  
Community Consolidated School District 93  
Bloomington, Illinois 60108

The Comprehensive Annual Financial Report of Community Consolidated School District 93, Carol Stream, Illinois, for the fiscal year ended June 30, 2023 is submitted herewith. The audit was completed and the report issued on November 20, 2023. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. We believe the data as presented is: (1) accurate in all material aspects; (2) presented in a manner designed to fairly set forth the financial activity of its various funds; and (3) that all disclosures necessary for maximum public understanding of the District's financial status have been incorporated in the report.

### **GENERAL DISTRICT INFORMATION**

The District was organized in 1920, provides educational programs for grades pre-kindergarten through eighth grade, and operates one early childhood center, six elementary schools and two middle schools. Student enrollment peaked in the 1997-1998 school year at 5,174. Although enrollment is less than the District's peak during the 1997-1998 school year, enrollment has slightly decreased over the last three years: 3,257 in August of 2021, and 3,280 in August of 2022, and 3,181 in August of 2023. According to the most recent demographic study, it should remain stabilized at approximately 3,200 students over the next few years.

The District contains approximately 11.65 square miles of land in the Northeast DuPage County and is located 40 miles west of Chicago's "Loop" and 18 miles southwest of O'Hare International Airport. The District serves portions of the Villages of Bloomington, Carol Stream, Hanover Park, and small portions of Glendale Heights and unincorporated DuPage County.

## **ECONOMIC OUTLOOK**

Fiscal year 2023 resulted in increased revenues and expenditures in the Educational Account, increased salary costs, fringe benefits, and technology expenditures. State and federal funds have been received on a more regular basis. Earnings on investments have increased as a result of economic factors. As we look to fiscal year 2024, the economic outlook for the District in the Educational Account is balanced. The District has continued to budget expenditures in a conservative manner as a result of a slight increase in property values in Bloomingdale and Wayne Townships. Bloomingdale Township has developed a plan to attract new businesses into the community and that is expected to have a positive impact on equalized assessed valuation for District 93. The State of Illinois, due to its deficit and the pandemic, has impacted state revenues for all school districts. Several state grants have been discontinued or severely prorated while categorical payments are being made to districts. Also, we will see the Federal funding within Elementary and Secondary School Emergency Relief Grant (ESSER) come to an end as we continue to move forward from the pandemic.

## **REPORTING ENTITY**

The District includes all funds that are controlled by or dependent on the Board of Education of the District. The District does not exercise oversight responsibility over any other entity and thus does not include any other entity as a component unit in this report. Additionally, based on consideration of oversight responsibility, scope of public service and special financing relationships, the District is an independent entity, and not included as a component unit of any other reporting entity.

## **FINANCIAL MANAGEMENT AND CONTROL**

The management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft, or misuse and to ensure that adequate accounting data is properly recorded to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management. All internal control evaluations occur within this framework. Internal control practices are also integrated into the budgetary management of the District's funds. A budget is prepared for each fund,

control is provided by verification of appropriation amounts prior to expenditures, as well as a monthly review of actual account totals compared to budget. Additional control is established through published policies and procedures for all aspects of accounting practices of the District, which includes the recording of receipts and disbursements of funds entrusted to the District.

To ensure sound financial management, proper accounting practices, internal controls, and budgetary planning are affirmed by the continual review of the Board of Education.

The basis of accounting and the various funds utilized by the District are fully described in Note 1 of the financial statements. Additional information on the District's budgetary accounting can be found on page 72.

This is the twentieth (20) year the District has prepared financial statements following GASB 34, "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments." GASB 34 creates basic financial statements for reporting on the District's financial activities as follows:

*Government-wide financial statements.* These statements are prepared on an accrual basis of accounting, which is similar to the basis of accounting followed by many businesses. The government-wide statements include the Statement of Net Position and the Statement of Activities.

*Fund financial statements.* These statements present information for individual major funds rather than by fund type. Non-major funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include a reconciliation to the governmental activities accrual information presented in the government-wide financial statements.

As part of this model, management is responsible for preparing a Management's Discussion and Analysis of the District. This discussion is located in the basic financial statements, providing an assessment of District finances for fiscal year 2023.

## **FUTURE INITIATIVES**

The following components of the District's current strategic plan have been initiated while District officials created a Portrait of a Graduate and begin to craft a new Strategic Plan:

- **Maintaining low class sizes:** One of the financial goals of the Board of Education is to assure that District 93 maintains instructional programs at the current level. The average class size is approximately 19 students at the elementary level, and approximately 20 students per classroom at the middle school level. The Board of Education conducts a demographic study every five (5) years in order to obtain current enrollment projections to utilize facilities efficiently and to maintain low class sizes.

Grade Level	Total Enrollment - 2023/2024 School Year	Number of Sections	Class Size Average
PreK	133	18	N/A
K	326	17	19
1	314	16	19
2	359	19	19
3	331	17	19
4	319	16	20
5	343	16	21
6	341	17	20
7	360	17	21
8	355	18	20

- **Continued support for at-risk learners:** District 93 has continued to implement supports for at-risk learners at both the elementary and middle school levels. Besides implementing a variety of programs that push in and out of classrooms throughout the day, digital resources are available to personalize supports for at-risk learners, while monitoring their academic growth. Afterschool intervention programs are provided to support students with meeting and exceeding standards. Staff has been hired through Title I funding at three elementary schools that have the most diverse student populations, including the highest poverty levels in the district. District 93 has partnered with Glenbard District 87 to provide summer school activities for sixth and seventh grade students, as well as “bridge” program for our 8<sup>th</sup> grade students transitioning to Glenbard North High School.
- **World-class educational practices, standards-based reporting, problem-based learning and students as digital citizens and competent users of technology:** The District is continuing to expand

the use of educational practices to support personalized education for students, standards-based reporting, integration of the Illinois Learning Standards and problem-based learning opportunities. Parents have been provided with live access through the Internet to their children's grades and daily progress. Input from students, staff, parents and the community assisted the District in developing a new 5-year Strategic Plan designed to maximize the academic, social, and emotional potential of each student. The Strategic plan also provides all CCSD93 students with a world-class educational experience while also preparing them to be college and career ready. Communication, Collaboration, Critical Thinking, and Creativity skills are a key focus in all schools. CCSD93 continues to examine plans to provide internet for students to utilize after and before school hours. CCSD93 has made a conscious effort to expand its fine arts program with extensive resources for band and orchestra.

- **CCSD93 has researched learning space design to align with its personalized learning initiative.** The district has completed renovations to all eight schools' libraries to transform them into Innovation Centers. The purpose of these renovations is to provide greater opportunities for students to create, collaborate, enhance communication skills, and to develop critical thinking skills. Middle School science labs have been redesigned into STEM labs to provide greater opportunities for students to explore and develop science, mathematics, technology, and engineering skills.

District 93 continues to utilize resources provided by the community to offer rich and rigorous learning opportunities for all students. Continuous improvement efforts are embedded in the District's ongoing practices and procedures to ensure that all resources are utilized in an effective and efficient manner.

### **INDEPENDENT AUDIT**

The School Code of Illinois and the District's adopted policy require an annual audit of the books of accounts, financial records and transactions of all funds of the District. The audit is performed by independent certified public accountants selected by the District's Board of Education. The independent auditors' report has been included in the financial section of this report.

## **CERTIFICATE OF ACHIEVEMENT**

The Association of School Business Officials (ASBO) awarded a Certificate of Excellence in Financial Reporting to Community Consolidated School District 93 for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2022; the thirty-sixth (36) consecutive year for receipt of the award.

In addition, for the thirty-second (32) time, the Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Community Consolidated School District 93 for its Comprehensive Annual Financial Report for the fiscal year June 30, 2022.

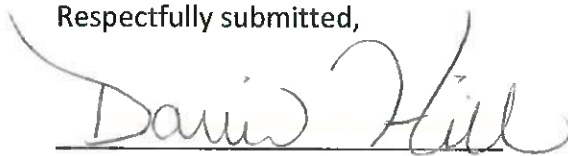

In order to be awarded these Certificates, the District must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such reports must satisfy generally accepted accounting principles and applicable legal requirements.

A Certificate of Excellence and a Certificate of Achievement are valid for a period of one year only. We believe that our current report continues to conform to the Certificate requirements and we are submitting it to ASBO and GFOA to determine its eligibility for the Certificates.

## **CLOSING STATEMENT**

It is our belief that this Comprehensive Annual Financial Report will provide the District's management, outside investors, and local citizens with a meaningful financial presentation. We hope that all readers of this Report will obtain a clear and concise understanding of the District's financial condition as of June 30, 2023. We extend our appreciation to the members of the Board of Education for their interest and support in planning and conducting the financial operations of the District in a professional and fiscally responsible manner.

Respectfully submitted,

## **Independent Auditors' Report**

To the Board of Education of  
Community Consolidated School District 93

### **Report on the Audit of the Financial Statements**

#### ***Opinions***

We have audited the accompanying financial statements of the governmental activities and each major fund of Community Consolidated School District 93 (the District), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of June 30, 2023 and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## ***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

## ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit for the year ended June 30, 2023 was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information for the year ended June 30, 2023 as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements for the year ended June 30, 2023, and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects, in relation to the basic financial statements as a whole for the year ended June 30, 2023.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of the District as of and for the year ended June 30, 2022 (not presented herein), and have issued our report thereon dated November 11, 2022, which contained unmodified opinions on the respective financial statements of the governmental activities and each major fund. The supplementary information for the year ended June 30, 2022 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2022 basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the 2022 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those basic financial statements or to those basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2022.

### ***Other Information***

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the introductory and statistical sections as listed in the table of contents but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### ***Report on Summarized Comparative Information***

We have previously audited the District's 2022 financial statements, and we expressed unmodified audit opinions on the respective financial statements of the governmental activities and each major fund in our report dated November 11, 2022. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2022, is consistent, in all material respects, with the audited financial statements from which it has been derived.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated November 20, 2023 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

## **Management's Discussion and Analysis (Unaudited)**

### **As of and for the Year Ended June 30, 2023**

---

The discussion and analysis of Community Consolidated School District 93's (the "District") financial performance provides an overall review of the District's financial activities as of and for the year ended June 30, 2023. The management of the District encourages readers to consider the information presented herein in conjunction with the transmittal letter found in the introductory section and the basic financial statements to enhance their understanding of the District's financial performance. All amounts, unless otherwise indicated, are expressed in millions of dollars. Certain comparative information between the current year and the prior is required to be presented in the Management's Discussion and Analysis (the "MD&A").

#### **Financial Highlights**

- > In total, net position increased by \$3.9. This represents a 9% increase from 2022 and was primarily related to the decrease in net OPEB liabilities associated with the Teachers Health Insurance System (THIS).
- > General revenues accounted for \$69.8 in revenue or 75% of all revenues. Program specific revenues in the form of charges for services and fees and grants accounted for \$23.7 or 25% of total revenues of \$93.5.
- > The District had \$89.6 in expenses related to government activities. However, only \$23.7 of these expenses were offset by program specific charges and grants.
- > The District continued to pay down its long-term debt retiring \$0.9 million in fiscal 2023.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The basic financial statements are comprised of three components:

- > Government-wide financial statements,
- > Fund financial statements, and
- > Notes to basic financial statements.

This report also contains other supplementary information in addition to the basic financial statements.

#### *Government-wide financial statements*

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets/deferred outflows of resources and liabilities/deferred inflows of resources, with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

# **Community Consolidated School District 93**

## **Management's Discussion and Analysis (Unaudited)**

### **As of and for the Year Ended June 30, 2023**

---

The statement of activities presents information showing how the government's net position changed during the fiscal year being reported. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements present the functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). The District has no business-type activities; that is, functions that are intended to recover all or a significant portion of their costs through user fees and charges. The District's governmental activities include instructional services (regular education, special education and other), supporting services, operation and maintenance of facilities and transportation services.

#### *Fund financial statements*

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are governmental funds (the District maintains no proprietary or fiduciary funds).

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a school district's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, Operations and Maintenance Fund, Transportation Fund, IMRF/Social Security Fund, Debt Service Fund, and Capital Projects Fund, all of which are considered to be major funds.

The District adopts an annual budget for each of the funds listed above. A budgetary comparison schedule has been provided for each fund to demonstrate compliance with this budget.

**District-Wide Expenses by Function**

**Financial Analysis of the District's Funds**

The District's Governmental Funds balance decreased from \$36.6 to \$35.7.

Total revenues in the General Fund for fiscal year 2023 were \$81.5, total expenditures were \$80.5 resulting in revenues exceeding expenditures by \$1.0 before other financing sources and uses. The fund balance in the General Fund as of July 1, 2022 was \$30.0 and increased to \$31.0, an increase of \$1.0 and is primarily attributed to increased investment income over the prior year of approximately \$0.8.

## **Management's Discussion and Analysis (Unaudited)**

### **As of and for the Year Ended June 30, 2023**

---

Revenues exceeded expenditures in the Operations and Maintenance Fund by \$0.8, primarily due to an increase of corporate personal property replacement taxes allocated to this fund in fiscal year 2023 of \$0.5 and a decrease in capital expenditures of \$0.4 from the prior year. Fund balance increased by \$0.2 after the transfer of \$0.6 to the Debt Service Fund to provide a funding source for the payments on outstanding debt certificates and leases made during the year.

The Transportation Fund revenues exceeded expenditures by \$0.2. The District allocated \$1.8 of Evidence Based Funding to this fund to offset increasing transportation costs that were \$1.1 greater than the prior fiscal year.

The Municipal Retirement/Social Security Fund expenditures exceeded revenues by \$0.4 resulting in an ending fund balance at June 30, 2023 of \$0.2. This decrease was primarily due to a decrease of Corporate Personal Property Replacement Tax Revenue allocated to this fund during the year.

The Capital Projects Fund fund balance was fully utilized for facility updates and renovations throughout the District during the year.

#### **General Fund Budgetary Highlights**

The District budget is prepared in accordance with Illinois law and is based on the modified accrual basis of accounting, utilizing revenues, expenditures and encumbrances. The most significant budgeted fund is the General Fund's Educational Account. The budget was amended to account for unanticipated revenues and expenditures.

Staff levels in the Educational Account for fiscal 2023 remained relatively stable to continue to offer low class sizes at the lower levels and continue to offer full day kindergarten and preschool at the elementary schools and the early childhood center.

The General Fund total revenues were within \$10,000 of budgeted amounts. General Fund expenditures were below budgeted amounts by \$1.0.

#### **Factors Bearing on the District's Future**

At the time these financial statements were prepared and audited, the District was aware of the following circumstances that will significantly affect financial operations in the future:

**Strategic Plan:** During the 2022-2023 school year, the Community Consolidated School District 93 (CCSD93) Board of Education approved a new 5-year strategic plan. This strategic plan represents the will of the community. All staff members, parents, community members and middle school students were invited in the fall and winter of 2022 to provide feedback on their desired direction for the district through online or telephonic surveys. In total, more than 2,400 stakeholders took the opportunity to share meaningful input on the current state of the district and priorities for the future. This plan was developed to be in alignment with the district's Portrait of a Graduate. This new plan will provide every member of the organization, including the Board of Education, the direction needed over an extended period of time to organize expertise, systems and resources to achieve the district's mission and realize its vision for students. It defines what the district believes (core values), what is important for the district to achieve (strategic priorities) and the ways to achieve them (objectives). It also includes basic measures (key performance indicators) used to access progress over time. The plan will help ensure efficient and effective use of the valuable resources the community provides to the district.

**Redesigned Learning Spaces:** The District has completed renovations to all eight school libraries to transform them into Innovation Centers. The purpose of these renovations is to provide greater opportunities for students to create, collaborate, enhance communication skills, and to develop critical thinking skills. Middle school science labs have been redesigned into Science, Technology, Engineering and Math (STEM) labs to provide greater opportunities for students to explore and develop skills in these STEM areas

**Early Childhood Learning:** The Board of Education continues to be committed to providing a world class education for preschool students. The District's Early Childhood Center was built ten (10) years ago. The school addresses special needs, at risk, and tuition-based students. English as a Second Language (ESL) and bilingual education have been incorporated in the curricula. A Birth to Five Coalition was implemented in the 2016-2017 school year so that the youngest children in CCSD93's community can gain the support and resources that they need prior to starting school.

**Ten Year Health/Life Safety Survey Evaluation:** District 93 has recently completed the required ten-year Health/Life Safety Survey evaluation. Health and life safety projects are continuously factored into the District's ten-year comprehensive facility renovation plan. The overall needs of the District have been addressed recently by spending more than \$1 million per year on capital projects.

**Environmental Factors:** The District will continue to promote environmental and "green" building solutions. Many of these environmental solutions initially come with a higher cost, although often provide a financial "pay back" after a number of years. The District has recently replaced several parking lots with permeable brick pavers, installed new exterior windows, installed univents in several buildings, upgraded interior/exterior lighting to LED at several facilities, and replaced mechanical components. In addition, the comprehensive ten-year facility renovation plan continues to be updated to ensure the design of energy saving improvements throughout the District. Over the last ten years, it has been the responsibility of District 93 to be a good steward of the environment and to continue to examine sustainable initiatives. It is vital that these initiatives are part of the District 93 culture for staff, students, and parents.

# **Community Consolidated School District 93**

## **Management's Discussion and Analysis (Unaudited)**

### **As of and for the Year Ended June 30, 2023**

---

COVID-19: The District continued to educate students while realizing the need to narrow the learning gaps during 2022-2023. There has been an increase in services for students in need along with an increase in Special Education and EL enrollment. Although funds from tax collections have not been reduced and state categorical payments and Elementary and Secondary School Emergency Relief (ESSER) funding have been made regularly, the District will continue to conservatively project for future years. The District made good use of ESSER funds by beginning work to improve the overall air quality at three elementary school by replacing the unit ventilators. The work at the three schools will be completed during the 2023-2024 school year.

Net change in fund balances - total governmental funds	\$	(895,932)	
Amounts reported for governmental activities in the Statement of Activities are different because:			
Governmental funds report capital outlay as expenditures. However, in the Statement of Activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which current year net capital outlay exceeds depreciation expense in the current period.			445,708
Certain revenues included in the Statement of Activities do not provide current financial resources and, therefore, are included as deferred inflows of resources in the fund statements:			
State and Federal aid	\$	(100,084)	
Other revenue		<u>(714,461)</u>	(814,545)
The issuance of long-term debt (bonds, lease liabilities, etc.) provides current financial resources to the governmental funds, while its principal repayment consumes current financial resources of the governmental funds. Neither transaction, however, has any effect on net position. This is the amount by which current year principal repayments exceeded proceeds from current year long-term financing arrangements.			960,088
Governmental funds report the effects of premiums, discounts and similar items when the debt is issued. However, these amounts are deferred and amortized in the Statement of Activities. This is the amount of the current year, net effect of these differences.			82,382
In the Statement of Activities, operating expenses are measured by the amounts incurred during the year. However, certain of these items are included in the governmental funds only to the extent that they require the expenditure of current financial resources:

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Community Consolidated School District 93 (the "District") operates as a public school system governed by a seven-member board. The District is organized under the School Code of the State of Illinois, as amended. The accounting policies of the District conform to the accounting principles generally accepted in the United States of America, as applicable to local governmental units of this type. The following is a summary of the more significant accounting policies of the District:

### Reporting Entity

This report includes all of the funds of the District. The reporting entity for the District consists of the primary government and its component units. Component units are legally separate organizations for which the primary government is financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading. The District has not identified any organizations that meet this criteria.

### Basis of Presentation

#### *Government-wide Financial Statements*

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. The effect of interfund activity has been removed from these statements. The District's operating activities are all considered "governmental activities," that is, activities normally supported by taxes and intergovernmental revenues. The District has no operating activities that would be considered "business activities".

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: (1) amounts paid by the recipient of goods or services offered by the program and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

#### *Governmental Funds Financial Statements*

Governmental funds financial statements are organized and operated on the basis of funds and are used to account for the District's general governmental activities. Fund accounting segregates funds according to their intended purpose, and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, reserves, fund balance, revenues and expenditures. The minimum number of funds is maintained consistent with legal and managerial requirements.

Separate financial statements are provided for all governmental funds.

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

#### Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue when all eligibility requirements have been met.

Governmental fund financial statements are reported using the flow of current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both "measurable and available". "Measurable" means that the amount of the transaction can be determined, and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers all revenues available if they are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred. However, expenditures for unmatured principal and interest on general long-term debt are recognized when due; and certain compensated absences, claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources.

#### Major Governmental Funds

General Fund - the general operating fund of the District. It accounts for all financial resources except those required to be accounted for in another fund. This fund is primarily used for most of the instructional and administrative aspects of the District's operations. Revenues consist largely of local property taxes and state government aid.

This fund also includes student activity funds held and controlled by the District, under the direction of district personnel, and administrative involvement of the Board of Education.

Special Revenue Funds - account for the proceeds of specific revenue sources that are legally restricted or committed to expenditures for specified purposes, other than those accounted for in the Debt Service Fund or Capital Projects Funds.

*Operations and Maintenance Fund* - accounts for expenditures made for repair and maintenance of the District's buildings and land. Revenue consists primarily of local property taxes.

*Transportation Fund* - accounts for all revenue and expenditures made for student transportation. Revenue is derived primarily from local property taxes and state reimbursement grants.

*Municipal Retirement/Social Security Fund* - accounts for the District's portion of pension contributions to the Illinois Municipal Retirement Fund, payments to Medicare, and payments to the Social Security System for non-certified employees. Revenue to finance the contributions is derived primarily from local property taxes and personal property replacement taxes.

Debt Service Fund - accounts for the accumulation of resources that are restricted, committed, or assigned for, and the payment of, long-term debt principal, interest and related costs. The primary revenue source is local property taxes levied specifically for debt service and transfers from other funds.

Capital Project Fund - accounts for the financial resources that are restricted, committed, or assigned to be used for the acquisition or construction of, and/or additions to, major capital facilities.

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

*Capital Projects Fund* - accounts for construction projects and renovations financed through bonds proceeds or transfers from other funds.

On-behalf payments (payments made by a third party for the benefit of the district, such as payments made by the state to the Teachers' Retirement System) have been recognized in the financial statements.

Property taxes, replacement taxes, certain state and federal aid, and interest on investments are susceptible to accrual. Other receipts become measurable and available when cash is received by the District and recognized as revenue at that time.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as unearned revenues until earned.

### *All Financial Statements*

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources and disclosure of contingent assets, deferred outflows of resources, liabilities, and deferred inflows of resources at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

### **Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity**

#### *Deposits and Investments*

State statutes authorize the District to invest in obligations of the U.S. Treasury, certain highly-rated commercial paper, corporate bonds, repurchase agreements, and the State Treasurer's Investment Pool. Investments are stated at fair value. Changes in fair value of investments are included as investment income.

#### *Receivables and Payables*

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". These amounts are eliminated in the governmental activities column in the statement of net position. Receivables are expected to be collected within one year.

#### *Property Tax Revenues*

The District must file its tax levy resolution by the last Tuesday in December of each year. The District's 2022 levy resolution was approved during the December 15, 2022 board meeting. The District's property tax is levied each year on all taxable real property located in the District and it becomes a lien on the property on January 1 of that year. The owner of real property on January 1 in any year is liable for taxes of that year.

The tax rate ceilings are applied at the fund level. These ceilings are established by state law subject to change only by the approval of the voters of the District.

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

The PTELA limitation is applied in the aggregate to the total levy (excluding certain levies for the repayment of debt). PTELA limits the increase in total taxes billed to the lesser of 5% or the percentage increase in the Consumer Price Index (CPI) for the preceding year. The amount can be exceeded to the extent there is “new growth” in the District’s tax base. The new growth consists of new construction, annexations and tax increment finance district property becoming eligible for taxation. The CPI rates applicable to the 2022 and 2021 tax levies were 5.0% and 1.4%, respectively.

Property taxes are collected by the County Collector/Treasurer, who remits to the District its share of collections. Taxes levied in one year become due and payable in two equal installments: the first due on June 1 and the second due on September 1. Property taxes are normally collected by the District within 60 days of the respective installment dates.

The 2022 property tax levy is recognized as a receivable in fiscal 2023, net of estimated uncollectible amounts approximating 1% and less amounts already received. The District considers that the first installment of the 2022 levy is to be used to finance operations in fiscal 2023. The District has determined that the second installment of the 2022 levy is to be used to finance operations in fiscal 2024 and has included the corresponding receivable as a deferred inflow of resources.

### *Personal Property Replacement Taxes*

Personal property replacement taxes are first allocated to the Municipal Retirement / Social Security Fund, and the balance is allocated to the remaining funds at the discretion of the District.

### *Prepaid Items*

Certain payments to vendors that reflect costs applicable to future accounting periods are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

### *Capital Assets*

Capital assets, which include land, construction in progress, buildings and improvements, equipment, and vehicles are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial individual cost of more than \$2,500 and an estimated useful life of more than 1 year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

Depreciation of capital assets is provided using the straight-line method over the following estimated useful lives:

<i>Assets</i>	<i>Years</i>
Buildings and building improvements	50
Land improvements	20
Furniture, equipment, and vehicles	5-20

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

#### *Deferred Outflows of Resources*

A deferred outflow of resources represents a consumption of net assets that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until that future time.

#### *Compensated Absences*

Under terms of employment, employees are granted sick leave and vacations in varying amounts. Only benefits considered to be vested are disclosed in these statements.

All vested vacation and sick leave pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements, or are payable with expendable available resources.

Payments for vacation and sick leave will be made at rates in effect when the benefits are used. Accumulated vacation and sick leave liabilities at June 30, 2023 are determined on the basis of current salary rates and include salary related payments.

Non-certified employees earn vacation days which vest after the completion of one year of service. Vacation days are accumulated based upon the date of initial employment. Non-certified employees hired prior to July 1, 1996 receive 30 days of vacation per year. Non-certified employees hired after July 1, 1996 receive 22 days of vacation per year. Vacation days may be accumulated up to a total of 60 days.

Vacation pay shall be paid at the rate of the employee's regular hourly rate of pay in effect for the employee's regular job classification. An employee who provides at least two weeks advance written notice of his/her termination of employment with the District shall be paid for any earned but unused vacation at the time of termination. Upon retirement, resignation, or termination, a maximum of sixty days of accrued vacation days will be paid out. The District's entire liability for unpaid vacation leave is reported on the government-wide financial statements as a current liability as historically these balances are utilized within one year.

Full-time certified teachers receive between 13 and 20 sick days per year based upon years of service in accordance with the agreement between the Board of Education and the Carol Stream Education Association. There is no limit to the amount of sick days that can be accumulated. Part-time teachers covered under the agreement are entitled to days of sick leave on a prorated basis. The District does not reimburse certified employees covered under this agreement for unused sick days remaining upon termination of employment. Due to the nature of the policies on sick leave, and the fact that any liability is contingent upon future events and cannot be reasonably estimated, no liability is provided in the financial statements for accumulated unpaid sick leave.

#### *Long-Term Obligations*

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the applicable bonds using the effective interest method. The balance at year end for premiums/discounts is shown as an increase or decrease in the liability section of the statement of net position.

## COMMUNITY CONSOLIDATED SCHOOL DISTRICT 93

NOTES TO BASIC FINANCIAL STATEMENTS  
AS OF AND FOR THE YEAR ENDED JUNE 30, 2023

---

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

In the fund financial statements, governmental funds recognize bond premiums and discounts during the period incurred. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

#### *Deferred Inflows of Resources*

A deferred inflow of resources represents an acquisition of net assets that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time.

#### *Equity Classifications*

Equity is classified as net position in the government-wide financial statements and displayed in three components:

*Net investment in capital assets* - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets less than any unspent debt proceeds.

*Restricted net position* - Consists of net position with constraints placed on its use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation.

*Unrestricted net position* - All other net position that does not meet the definition of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first and then unrestricted resources.

Equity is classified as fund balance in the fund financial statements and displayed in five components:

*Nonspendable* - includes amounts not in spendable form, such as inventory, or amounts required to be maintained intact legally or contractually (principal endowment) (e.g. inventory, pre-paid items, permanent scholarships).

*Restricted* - includes amounts constrained for a specific purpose by external parties (e.g. Debt Service, Capital Projects, State and Federal Grant Funds).

*Committed* - includes amounts constrained for a specific purpose by a government using its highest level of decision making authority, the Board of Education. This formal action (a resolution) must occur prior to the end of the reporting period, but the amount of the commitment, which will be subject to the constraints, may be determined in the subsequent period. Any changes to the constraints imposed require the same formal action of the Board of Education board that originally created the commitment.

## COMMUNITY CONSOLIDATED SCHOOL DISTRICT 93

NOTES TO BASIC FINANCIAL STATEMENTS  
AS OF AND FOR THE YEAR ENDED JUNE 30, 2023

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

*Assigned* - includes general fund amounts constrained for a specific purpose by the Board of Education or by an official that has been delegated authority to assign amounts. The Board of Education has not delegated this authority. The Board of Education may take official action to assign amounts. Additionally, all remaining positive spendable amounts in governmental funds, other than the General Fund, that are neither restricted nor committed are considered assigned. Assignments may take place after the end of the reporting period.

*Unassigned* - includes residual positive fund balance within the General Fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed or assigned for those specific purposes.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, followed by committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

The District does not have a formal minimum fund balance policy.

Governmental fund balances reported on the fund financial statements at June 30, 2023 are as follows:

The nonspendable fund balances in the General Fund and Operations and Maintenance Fund are comprised of \$642,447 and \$51,006 for prepaid insurance. The assigned fund balance in the General Fund of \$112,838 is for student activity purposes. The restricted fund balance in the General Fund is comprised of \$583,867 for the operation of the District's food service program. The restricted and remaining assigned fund balances are for the purpose of the respective funds as described above in the Major Governmental Funds section.

#### *Comparative Data*

The financial statements include summarized prior-year comparative information. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2022, from which such summarized information was derived.

#### *Eliminations and Reclassifications*

In the process of aggregating data for the government-wide financial statements, some amounts reported as interfund activity and balances were eliminated or reclassified.

### NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### **Excess of Expenditures over Budget**

For the year ended June 30, 2023, expenditures exceeded budget in the Transportation, Municipal Retirement/Social Security and Debt Service Funds by \$580,211, \$4,980, and \$107,495; respectively. These excesses were funded with available financial resources.

## NOTE 3 - DEPOSITS AND INVESTMENTS

At year end, the District's cash and investments was comprised of the following:

	<i>Carrying Value</i>	<i>Statement Balances</i>	<i>Associated Risks</i>
Deposits	\$ 17,645,993	\$ 19,957,095	Custodial credit risk
ISDLAF + Money market investment pool	21,526,815	21,526,815	Credit risk
U.S. treasuries	998,000	998,000	Custodial credit risk, interest rate risk
Negotiable certificates of deposit	239,362	239,362	Credit risk, custodial credit risk, concentration of credit risk, interest rate risk
Petty cash	<u>2,000</u>	<u>2,000</u>	N/A
Total	<u>\$ 40,412,170</u>	<u>\$ 42,723,272</u>

Per statement of net position			
Cash and investments	\$ 40,299,332		
Student activity cash	<u>112,838</u>		
Total	<u>\$ 40,412,170</u>		

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District's investments detailed in the interest rate risk table below are valued using quoted matrix pricing models (Level 2 inputs).

<i>Investment Type</i>	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Total</i>
U.S. treasuries	\$ -	\$ 998,000	\$ -	\$ 998,000
Negotiable certificates of deposit	<u>-</u>	<u>239,962</u>	<u>-</u>	<u>239,962</u>
Total	<u>\$ -</u>	<u>\$ 1,237,962</u>	<u>\$ -</u>	<u>\$ 1,237,962</u>

*Interest Rate Risk.* Interest rate risk is the risk that changes in interest rates will adversely affect the value of an investment. The District's investment policy seeks to ensure preservation of capital in the District's overall portfolio. Liquidity is of secondary importance to safety of principal and return on investment. The policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, the policy requires the District investment portfolio to be sufficiently liquid to enable the District to meet all operating requirements as they come due.

*Credit Risk.* Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State Statutes limit the investments in commercial paper and corporate bonds to the top three ratings of two nationally recognized statistical rating organizations (NRSRO's). The District has no investment policy that would further limit its investment choices.

As of June 30, 2023, the District's US treasury were rated Aaa by Moody's and AA+ by Standard and Poor. The District's negotiable certificate of deposit was not rated.

The Illinois School District Liquid Asset Fund Plus (ISDLAF+) money market investment pool is a not-for-profit investment trust formed pursuant to the Illinois Municipal Code and managed by a Board of Trustees elected from participating members. The trust is not registered with the SEC as an investment company. Investments are rated AAAM and are valued at share price, which is the price for which the investment could be sold.

*Custodial Credit Risk - Deposits.* With respect to deposits, custodial credit risk refers to the risk that, in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy limits the exposure to deposit custodial credit risk by requiring all deposits in excess of FDIC insurable limits to be secured by collateral in the event of default or failure of the financial institution holding the funds. As of June 30, 2023, the bank balance of the District's deposit with financial institutions totaled \$19,957,294; which was fully collateralized and insured.

*Custodial Credit Risk - Investments.* With respect to investments, custodial credit risk is the risk that, in the even of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investment policy limits the exposure to investment custodial credit risk by requiring all investments be secured by private insurance or collateral.

Separate cash and investment accounts are not maintained for all District funds; instead, the individual funds maintain their invested and uninvested balances in the common checking and investment accounts, with accounting records being maintained to show the portion of the common account balance attributable to each participating fund.

### NOTE 7 - LESSOR AGREEMENTS

The District leased building space under a noncancelable operating leases to a third party. The District recognized \$20,536 in lease revenue and \$458 in interest revenue during the current fiscal year related to this lease. The lease concluded at June 30, 2023.

### NOTE 8 - RISK MANAGEMENT

The District is exposed to various risks of loss related to employee health benefits; workers' compensation claims; theft of, damage to, and destruction of assets; and natural disasters. To protect from such risks, the District participates in the following public entity risk pool: Collective Liability Insurance Cooperative for workers compensation coverage. The District pays annual premiums to the pool for insurance coverage. The arrangement with the pool provides that it will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of certain levels established by the pool. There have been no significant reductions in insurance coverage from coverage in any of the past three fiscal years.

The District continues to carry commercial insurance for all other risks of loss. Premiums have been recorded as expenditures in the appropriate funds. There have been no significant reductions in insurance coverage from coverage in the prior years. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

### NOTE 9 - JOINT AGREEMENTS

The District is a member of Cooperative Association for Special Education, a joint agreement that provides certain special education services to residents of many school districts. The District is also a member of the risk management pool listed above (Note 8). The District believes that because it does not control the selection of the governing authority, and because of the control over employment of management personnel, operations, scope of public service, and special financing relationships exercised by the joint agreement governing boards, these are not included as component units of the District.

## NOTE 10 - OTHER POST-EMPLOYMENT BENEFITS

### Teachers' Health Insurance Security

*Plan Description.* The District participates in the Teacher Health Insurance Security (THIS) Fund, a cost-sharing, multiple-employer defined benefit post-employment healthcare plan that was established by the Illinois legislature for the benefit of retired Illinois public school teachers employed outside the city of Chicago. The THIS Fund provides medical, prescription, and behavioral health benefits, but it does not provide vision, dental, or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state-administered participating provider option plan or choose from several managed care options. Annuitants who are enrolled in Medicare Parts A and B may be eligible to enroll in a Medicare Advantage plan.

The publicly available financial report of the THIS Fund may be found on the website of the Illinois Auditor General: <http://www.auditor.illinois.gov/Audit-Reports/ABC-List.asp>. The current reports are listed under "Central Management Services."

*Benefits Provided.* The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefit provisions of the THIS Fund and amendments to the plan can be made only by legislative action with the Governor's approval. The plan is administered by the Illinois Department of Central Management Services (CMS) with the cooperation of TRS. Section 6.6 of the State Employees Group Insurance Act of 1971 requires all active contributors to TRS who are not employees of the state to make a contribution to the THIS Fund.

*On Behalf Contributions to THIS Fund.* The State of Illinois makes employer retiree health insurance contributions on behalf of the District. State contributions are intended to match contributions to THIS Fund from active members which were 0.90% of pay during the year ended June 30, 2023. State of Illinois contributions of \$327,572 were recognized as revenues and expenditures by the District during the year in the General Fund based on the current financial resources measurement basis. On the economic resources measurement basis, the District recognizes revenues and expenses of (\$5,178,629) in Governmental Activities equal to the proportion of the State of Illinois's OPEB expense associated with the employer.

*Contributions.* The District also makes contributions to THIS Fund. The District's THIS Fund contribution was 0.67% during the year ended June 30, 2023. The percentage of employer required contributions in the future will not exceed 105% of the percentage of salary actually required to be paid in the previous fiscal year. For the year ended June 30, 2023, the District paid \$243,859 to the THIS Fund, respectively, which was 100 percent of the required contribution for the year.

*THIS Fiduciary Net Position.* Detailed information about the THIS Fund's fiduciary net position as of June 30, 2022 is available in the separately issued THIS Annual Financial Report.

*Net OPEB Liability.* At June 30, 2023, the District reported a liability for its proportionate share of the net OPEB liability (first amount shown below) that reflected a reduction for the state's retiree insurance support provided to the District. The state's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net OPEB liability, the related state support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the collection net OPEB liability	\$ 8,810,751
State's proportionate share of the collective net OPEB liability associated with the District	<u>11,986,160</u>
Total	<u>\$ 20,796,911</u>

## NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2023

### NOTE 10 - OTHER POST-EMPLOYMENT BENEFITS - (CONTINUED)

The net OPEB liability was measured as of June 30, 2022, and the total OPEB liability was determined by an actuarial valuation as of June 30, 2021 rolled forward to June 30, 2022. The District's proportion of the net OPEB liability was based on the District's share of contributions to THIS for the measurement year ended June 30, 2022, relative to the projected contributions of all participating THIS employers and the state during that period. At June 30, 2022 and 2021, the District's proportion was 0.128724% and 0.133009%, respectively.

*Actuarial Assumptions.* The net OPEB liability in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.25%
Salary Increases	3.50% to 8.50%
Investment Rate of Return	2.75%
Healthcare Cost Trend Rates - Initial	Medicare and Non-Medicare - 8.00%
Healthcare Cost Trend Rates - Ultimate	4.25%
Fiscal Year the Ultimate Rate is Reached	2039

Mortality rates were based on the RP-2014 White Collar Annuitant Mortality Table, adjusted for TRS experience. For disabled annuitants, mortality rates were based on the RP-Disabled Annuitant table. Mortality rates for pre-retirement were based on the RP-2014 White Collar Table. All tables reflect future mortality improvements using Projection Scale MP-2017.

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience study for the period July 1, 2014 through June 30, 2017.

*Discount Rate.* At June 30, 2022, the discount rate used to measure the total OPEB liability was a blended rate of 3.69%, which was a change from the June 30, 2021 rate of 1.92%. Since THIS is financed on a pay-as-you-go basis, the discount rate is based on the 20-year general obligation bond index.

*Sensitivity of the Net OPEB Liability to Changes in the Discount Rate.* The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.69%) or 1-percentage-point higher (4.69%) than the current discount rate:

	<b>1% Decrease</b>	<b>Current Discount Rate</b>	<b>1% Increase</b>

*OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB.* For the year ended June 30, 2023, the District recognized OPEB expense of \$(3,725,634) and on-behalf revenue and expenses of \$(5,178,629) for support provided by the state. At June 30, 2023, the District's deferred outflows of resources and deferred inflows of resources related to OPEBs were from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Experience	\$ -	\$ 5,762,664
Changes in Assumptions	7,948	21,733,778
Net Difference Between Projected and Actual Earnings on OPEB Plan Investments	1,070	-

District Contributions Subsequent to the Measurement Date	243,859	-
Total	\$ 1,036,301	\$ 29,499,538

The amount reported as deferred outflows resulting from contributions subsequent to the measurement date in the above table will be recognized as a reduction in the net OPEB liability for the year ending June 30, 2024. The remaining amounts reported as deferred outflows and inflows of resources related to OPEB (\$28,707,096) will be recognized in OPEB expense as follows in these reporting years:

#### Retiree's Health Plan

*Plan Description.* The District administers a single-employer defined benefit healthcare plan ("the Retiree's Health Plan"). The plan provides health insurance contributions for eligible retirees and their spouses through the District's group health insurance plan which covers both active and retired members. Benefit provisions are established through collective bargaining agreements and state that eligible retirees and their spouses receive health care insurance at established contribution rates. The Retiree's Plan is not administered through a trust or equivalent arrangement and there are no assets accumulated in a compliant trust. The Retiree's Health Plan does not issue a publicly available financial report. Total aggregate OPEB expense for the THIS and the Retiree's Health Plan is \$(3,596,494).

*Contributions and Benefits Provided.* Contribution requirements are established through collective bargaining agreements and may be amended only through negotiations between the board and the union. For certified personnel retirees meeting the above requirements, the District contributes \$2,000 per year, for five years, for those retirees participating in the District's medical insurance plan or up to \$3,000 per year, for five years, for those retirees participating in the Teachers' Retirement System medical plan or another medical plan other than that offered by the District. Coverage can be for under-65 and/or 65-and-over retiree medical coverage. Other employees (non-certified) meeting the above requirements can elect to continue coverage into retirement on the District health plan. However, they must pay the entire premium. The District makes contributions on a pay-as-you-go basis, where health insurance premiums are paid monthly.

*Employees Covered by Benefit Terms.* At June 30, 2022, the actuarial valuation date, the following employees were covered by the benefit terms:

Retired Plan Members	25
Active Employees Not Yet Eligible	-
Active Employees Fully Eligible	465
Total	490

*Total OPEB Liability.* The District's total OPEB liability of \$1,482,925 was measured as of June 30, 2022, and was determined by an actuarial valuation as of June 30, 2022.

Inflation	3.00%
Election at Retirement	30% - IMRF Employees 100% Certified Employees
Discount Rate	4.09%
Healthcare Cost Trend Rate - Initial	5.00%
Healthcare Cost Trend Rate - Ultimate	4.50%
Fiscal Year the Ultimate Rate is Reached	2038

The discount rate was based on the S&P Municipal Bond 20-Year High-Grade Rate Index as of June 30, 2023.

Mortality rates were based on 2022 IMRF Actuarial Valuation Report and the 2022 Teachers' Retirement System Actuarial Valuation Report.

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of the estimates of future events.

## NOTE 11 - RETIREMENT SYSTEMS

The retirement plans of the District include the Teachers' Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF). Most funding for TRS is provided through payroll withholdings of certified employees and contributions made by the State of Illinois on-behalf of the District. IMRF is funded through property taxes and a perpetual lien of the District's corporate personal property replacement tax. Each retirement system is discussed below.

### Teachers' Retirement System

*Plan Description.* The District participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active nonannuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at <https://www.trsil.org/financial/acfrs/fy2022>; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling (888) 678-3675, option 2.

### NOTE 11 - RETIREMENT SYSTEMS - (CONTINUED)

*Benefits Provided.* TRS provides retirement, disability, and death benefits. *Tier 1* members have TRS or reciprocal system service prior to January 1, 2011. *Tier 1* members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service.

*Tier 2* members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the highest four. Disability provisions for *Tier 2* are identical to those of *Tier 1*. Death benefits are payable under a formula that is different from *Tier 1*.

Essentially all *Tier 1* retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. *Tier 2* annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional *Tier 3* hybrid retirement plan, but it has not yet gone into effect. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout programs that expire on June 30, 2024. One program allows retiring *Tier 1* members to receive a partial lump-sum payment in exchange for accepting a lower, delayed annual increase. The other allows inactive vested *Tier 1* and *2* members to receive a partial lump-sum payment in lieu of a retirement annuity. Both programs began in 2019 and are funded by bonds issued by the state of Illinois.

*Contributions.* The State of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90 percent of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2022 was 9.0 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the District, is submitted to TRS by the District.

*On Behalf Contributions to TRS.* The State of Illinois makes employer pension contributions on behalf of the District. For the year ended June 30, 2023, State of Illinois contributions recognized by the District were based on the state's proportionate share of with the pension expense associated with the District, and the District recognized revenue and expenses of \$19,833,704 in governmental activities based on the economic resources measurement basis and revenues and expenditures in the amount of \$17,537,581 in the General Fund based on the current financial resources measurement basis.

*2.2 Formula Contributions.* Employers contribute 0.58 percent of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2023, were \$211,098, and are deferred because they were paid after the June 30, 2022 measurement date.

### NOTE 11 - RETIREMENT SYSTEMS - (CONTINUED)

*Federal and Special Trust Fund Contributions.* When TRS members are paid from federal and special trust funds administered by the District, there is a statutory requirement for the District to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total District normal cost beginning with the year ended June 30, 2018.

Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much more higher.

For the year ended June 30, 2023, the District pension contribution was 10.49 percent of salaries paid from federal and special trust funds. Contributions for the year ended June 30, 2023, were \$54,052, which was equal to the District's required contribution. These contributions are deferred because they were paid after the June 30, 2022 measurement date.

*Salary increases over 6 percent.* The District is also required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary. For the year ended June 30, 2023, the District paid \$316 to TRS for employer contributions due on salary increases in excess of 6 percent.

*TRS Fiduciary Net Position.* Detailed information about the TRS's fiduciary net position as of June 30, 2022 is available in the separately issued TRS Annual Comprehensive Financial Report.

*Net Pension Liability.* At June 30, 2023, the District reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the District. The state's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 2,910,811
State's proportionate share of the collective net pension liability associated with the District	<u>252,493,566</u>
Total	<u><u>\$ 255,404,377</u></u>

The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021, and rolled forward to June 30, 2022. The District's proportion of the net pension liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2022, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2022 and 2021, the District's proportion was 0.00347185 percent and 0.00384957 percent, respectively.

*Summary of Significant Accounting Policies.* For purposes of measuring the collective net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of TRS and additions to/deductions from TRS fiduciary net position have been determined on the same basis as they are reported by TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2023

### NOTE 11 - RETIREMENT SYSTEMS - (CONTINUED)

*Actuarial Assumptions.* The assumptions used to measure the total pension liability in the June 30, 2022 actuarial valuation included (a) 7.00% investment rate of return net of pension plan investment expense, including inflation, (b) projected salary increases varies by amount of service credit, and (c) inflation of 2.5%.

*Mortality.* The assumed mortality rates are based on the Society of Actuaries PubT-2010 mortality tables, adjusted for TRS experience, with generational improvement based on Scale MP-2020. The actuarial assumptions used were based on the results of an experience study dated August 12, 2021.

*Long-Term Expected Real Rate of Return.* The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

<b>Asset Class</b>	<b>Target Allocation</b>	<b>Long-Term Expected Real Rate of Return</b>
U.S. equities large cap	16.30 %	5.73 %
U.S. equities small/mid cap	1.90 %	6.78 %
International equities developed	14.10 %	6.56 %
Emerging market equities	4.70 %	8.55 %
U.S. bonds core	6.90 %	1.15 %
Cash equivalents	1.20 %	(0.32)%
TIPS	0.50 %	0.33 %
International debt developed	1.20 %	6.56 %
Emerging international debt	3.70 %	3.76 %
Real estate	16.00 %	5.42 %
Private debt	12.50 %	5.29 %
Hedge funds	4.00 %	3.48 %
Private equity	15.00 %	10.04 %
Infrastructure	2.00 %	5.86 %

*Discount Rate.* At June 30, 2022, the discount rate used to measure the total pension liability was a blended rate of 7.00 percent, which was the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and state contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position at June 30, 2022 was projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. *Tier 1's* liability is partially funded by *Tier 2* members, as the *Tier 2* member contribution is higher than the cost of *Tier 2* benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

*Discount Rate Sensitivity.* The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

	<b>1% Decrease</b>	<b>Current Discount Rate</b>	<b>1% Increase</b>
District's proportionate share of the collective net pension liability	<u>\$ 3,559,948</u>	<u>\$ 2,910,811</u>	<u>\$ 2,372,525</u>

*Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions.* For the year ended June 30, 2023, the District recognized pension expense of \$(239,745) and on-behalf revenue of \$19,833,704 for support provided by the state. At June 30, 2023, the District's deferred outflows of resources and deferred inflows of resources related to pensions were from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 5,851	\$ 16,049
Net difference between projected and actual earnings on pension plan investments	2,663	-

District contributions subsequent to the measurement date	<u>265,151</u>	<u>-</u>
Total	<u>\$ 287,087</u>	<u>\$ 685,336</u>

The amount reported as deferred outflows resulting from contributions subsequent to the measurement date in the above table will be recognized as a reduction in the net pension liability for the year ending June 30, 2024. The remaining amounts reported as deferred outflows and inflows of resources related to pensions (\$(663,400)) will be recognized in pension expense as follows:

### Illinois Municipal Retirement Fund

*Plan Description.* The District's defined benefit pension plan for Regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer pension plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained on-line at [www.imrf.org](http://www.imrf.org).

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. Public Act 96-0889 created a second tier for IMRF's Regular Plan. IMRF assigns a benefit tier to a member when he or she is enrolled in IMRF. The tier is determined by the member's first IMRF participation date. If the member first participated in IMRF before January 1, 2011, they participate in *Regular Tier 1*. If the member first participated in IMRF on or after January 1, 2011, they participate in *Regular Tier 2*.

For *Regular Tier 1*, pension benefits vest after eight years of service. Participating members who retire at or after age 60 with 8 years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under *Regular Tier 1*, the pension is increased by 3% of the original amount on January 1 every year after retirement. For *Regular Tier 2*, pension benefits vest after ten years of service. Participating members who retire at or after age 67 with 10 years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under *Regular Tier 2*, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of 3% of the original pension amount, or 1/2 of the increase in the Consumer Price Index of the original pension amount. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute.

*Plan Membership.* At December 31, 2022, the measurement date, membership of the plan was as follows:

Retirees and beneficiaries	228
Inactive, non-retired members	324
Active members	203
Total	<u>755</u>

*Contributions.* As set by statute, District employees participating in IMRF are required to contribute 4.50 percent of their annual covered salary. The statute requires the District to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's actuarially determined contribution rate for calendar year 2022 was 11.56 percent of annual covered payroll. The District also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

*Net Pension Liability/(Asset).* The net pension liability/(asset) was measured as of December 31, 2022, and the total pension liability used to calculate the net pension liability/(asset) was determined by an annual actuarial valuation as of that date.

*Summary of Significant Accounting Policies.* For purposes of measuring the net pension liability/(asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of IMRF and additions to/deductions from IMRF fiduciary net position have been determined on the same basis as they are reported by IMRF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

*Actuarial Assumptions.* The assumptions used to measure the total pension liability in the December 31, 2022 annual actuarial valuation included (a) 7.25% investment rate of return, (b) projected salary increases from 2.85% to 13.75%, and (c) price inflation of 2.25%. The retirement age is based on experience-based table of rates that are specific to the type of eligibility condition. The tables were last updated for the 2020 valuation pursuant to an experience study of the period 2017-2019.

*Mortality.* For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020 were used. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020 were used. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020 were used.

*Long-Term Expected Real Rate of Return.* The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

## NOTE 11 - RETIREMENT SYSTEMS - (CONTINUED)

*Discount Rate.* The discount rate used to measure the total pension liability for IMRF was 7.25%, the same rate as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits payments to determine the total pension liability.

*Discount Rate Sensitivity.* The following is a sensitivity analysis of the net pension liability/(asset) to changes in the discount rate. The table below presents the pension liability of the District calculated using the discount rate of 7.25% as well as what the net pension liability/(asset) would be if it were to be calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

## NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

AS OF AND FOR THE YEAR ENDED JUNE 30, 2023

### STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### Budgetary Data

Except for the exclusion of on-behalf payments from other governments, discussed below, the budgeted amounts for the Governmental Funds are adopted on the modified accrual basis, which is consistent with accounting principles generally accepted in the United States of America.

The Board of Education follows these procedures in establishing the budgetary data reflected in the general purpose financial statements:

1. The Administration submits to the Board of Education a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted and the proposed budget is available for inspection to obtain taxpayer comments.
3. Prior to September 30, the budget is legally adopted through passage of a resolution. By the last Tuesday in December, a tax levy resolution is filed with the county clerk to obtain tax revenues.
4. Management is authorized to transfer budget amounts, provided funds are transferred between the same function and object codes. The Board of Education is authorized to transfer up to a legal level of 10% of the total budget between functions within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education, after following the public hearing process mandated by law.
5. Formal budgetary integration is employed as a management control device during the year for all governmental funds.
6. All budget appropriations lapse at the end of the fiscal year.

The Board of Education amended the budget on June 8, 2023.

#### Budget Reconciliations

The Statement of Revenues, Expenditures and Changes in Fund Balance - Governmental Funds (GAAP basis) includes "on-behalf" payments received and made for the amounts contributed by the State of Illinois for the employer's share of the Teachers Retirement System pension. The District does not budget for these amounts in the Educational Accounts of the General Fund. The differences between the budget and GAAP basis are as follows:

	<i>Revenues</i>	<i>Expenditures</i>
General Fund Budgetary Basis	\$ 63,673,763	\$ 62,632,309
To adjust for on-behalf payments received	17,865,153	-
To adjust for on-behalf payments made	-	17,865,153
General Fund GAAP Basis	<u>\$ 81,538,916</u>	<u>\$ 80,497,462</u>

#### Excess of Expenditures over Budget

For the year ended June 30, 2023, expenditures exceeded budget in the Transportation and Municipal Retirement/Social Security Funds by \$580,211 and \$4,980, respectively. These excesses were funded by available financial resources.
